ALL AMERICAN DADS AT ALL AMERICAN SPEEDWAY

Source RMG Race Media Group

All American Speedway will be celebrating Father's Day this Saturday night June 18th by presenting each father in the stands and in the pits with a special sweet treat. All American Speedway will also be raffling off a Grill Box donated by Roseville Meat Company to one lucky dad. The mouth watering Grill Box will include 28-30 pounds of variety of Ribs, Tri Tip, Sausage, Steaks, Ground Chuck Patties, Chicken and Alpine Hot Dogs.

All American Speedway track fathers are different then the track moms by being physically involved and more hands on in the sport of racing. Fathers are not only a father but are Car Owners, Crew Chiefs, Mechanics, Spotters, Financial Support and of course a fan to their driver. Some fathers have an extensive racing background and their kids grew up around racing and today are racers at All American Speedway. Some fathers never had a history of racing and their kids stumbled upon the sport of racing and were hooked on the thrill of racing. Racing is a family affair and All American Speedway attracts lots of family oriented teams at the speedway.

Dave Gonzales father of Street Stock driver No. 98 Byron Gonzales carries multiple titles for the team. Dave's titles are Car Owner, Crew Chief, Financial Support and a dad for Byron's racing career. "It just started that way in 1998 when Byron started racing and it seems to work very well for our team," says Dave on his multiple roles for the team. Mr. Gonzales never raced before except one race in which he didn't transfer out of the B main. "I enjoy racing very much, maybe obsessed but I have enjoyed the thrill of success. I love the challenge in racing and like to do things on a different style than other racers by racing a different type of car a camaro," says Dave on his love for the sport of racing. The best father's day gift from Byron would be a main event win or he would be happy with another good finish. This year Byron has been close to winning his first 2011 victory and has proved solid top finishes leaving him third in points. "Byron is a very patient driver and he shows a lot of respect to other drivers in his division. We work very well together and we are a true team," says Dave on working with his son.

A father who has been involved in the sport of racing at All American Speedway for a long time has stepped back this year to be with his son and take a break from racing to recover a non racing surgery is Harry Lambert. Harry's son races the No. 50 Street Stock machine Chris Lambert. Harry's role on his son's race team is support, Mechanic and a father to Chris. "I help support the team in any way I can from working on my son's car at home or at the race track. I also give my son all the moral support he needs," says Harry on his role for his son's team. "The best father's day gift would be to spend the day

with my son and to capture another win,” says Harry as the best father’s day gift to receive. Harry not only has been racing at All American Speedway for over a decade but has been the track Chaplin for the last five years. “What I like about racing is entertaining the great fans at All American Speedway along with the constant real rush of racing fender to fender and bumper to bumper with other drivers in the street stock division. That is something you cannot buy, you can only get it by driving the race car. I Love Racing!” says Harry on his love for the sport of racing.

A father who has been involved in the racing industry from forming a motorsports business to racing for over 30 years is now heavily involved in his son’s career in racing is Rick Scribner. Rick Scribner formed a well known plastic business in the racing industry supplying utility jugs, funnels, engine containers, transmission containers for the racers. Rick’s son races the No. 5 NASCAR Late Model machine Chris Scribner. “I bring a lot of knowledge to my son’s race team. I’ve raced dirt sprint cars to go karts to NASCAR Winston Cup Series,” says Rick on his experience in racing. Rick’s role for his son’s race team is a Mechanic, Spotter, Supporter, Assistant Crew Chief, Team Principle and being a dad to Chris. “The best father’s day gift from Chris would be our first Late Model win. We have worked very hard to get where we are today and Chris has proved solid finishes,” says Rick on the team’s hard work. “I love the mechanical challenges of all race cars as well as the lap by lap competition,” says Rick on his love for the sport of racing.

The next Championship points race #8 will be this Saturday, June 18th at All American Speedway featuring NASCAR Late Models 100, Modifieds, Bombers and Street Stocks. Gates open at 4:00pm and racing begins at 6:00pm more information about All American Speedway can be found at www.AllAmericanSpeedway.com. The Placer County Fairgrounds administration office is open for advanced ticket sales Monday-Friday 9am-5pm, at 800 All American City Blvd, Roseville CA 95678, or contact the office at (916) 786-2025
